UCI Adult Dataset(Socioeconomics)

Description: Contains U.S. Census data including age, gender, race, education level, occupation, etc. Commonly used for fairness and bias research.

COLUMN	EXPLANATION
age	Age of the individual.
workclass	Type of employment (e.g., Private, Self-emp-not-inc, etc.).
fnlwgt	Final weight, a measure of the number of people the census believes the entry represents.
education	Highest level of education achieved.
education-num	Number of years of education.
marital-status	Marital status of the individual.
occupation	Type of occupation.
relationship	Relationship status within the family.
race	Race of the individual.
sex	Gender of the individual.
capital-gain	Capital gains.
capital-loss	Capital losses.
hours-per-week	Hours worked per week.
native-country	Country of origin.
income	Income level (<=50K or >50K).

German Socio-Economic Panel (SOEP)(Socioeconomics)

Description: Longitudinal survey of private households in Germany since 1984, collecting data on demographics, employment, education, and health.

COLUMN	EXPLANATION
pid	Person identifier.
hid	Household identifier.
year	Year of the survey.

COLUMN	EXPLANATION
age	Age of the individual.
sex	Gender of the individual.
education	Education level.
employment_status	Employment status.
income	Income level.
health_status	Health status.
marital_status	Marital status.
children	Number of children.
housing	Housing situation.
satisfaction	Life satisfaction score.

Understanding Society (UK Household Longitudinal Study) (Socioeconomics)

Description: Longitudinal study of UK households collecting data on social and economic circumstances, attitudes, and behaviors.

COLUMN	EXPLANATION
pidp	Person identifier.
hidp	Household identifier.
wave	Wave of the survey.
age	Age of the individual.
sex	Gender of the individual.
education	Education level.
employment_status	Employment status.
income	Income level.
health_status	Health status.
marital_status	Marital status.
children	Number of children.
housing	Housing situation.
satisfaction	Life satisfaction score.

Occupational Employment Statistics (OES)(Socioeconomics)

Description: Data from the U.S. Bureau of Labor Statistics providing information on gender and racial distribution in different occupations.

COLUMN	EXPLANATION
occupation_code	Code for the occupation.
occupation_title	Title of the occupation.
employment	Number of people employed in the occupation.
mean_wage	Mean wage for the occupation.
median_wage	Median wage for the occupation.
employment_rse	Relative standard error of the employment estimate.
wage_rse	Relative standard error of the wage estimate.
percentile_wage_10	10th percentile wage.
percentile_wage_25	25th percentile wage.
percentile_wage_50	50th percentile wage (median).
percentile_wage_75	75th percentile wage.
percentile_wage_90	90th percentile wage.

Current Population Survey (CPS)(Socioeconomics)

Description: A large socio-economic survey dataset containing extensive labor market information, used for studying income disparity and equality issues.

COLUMN	EXPLANATION
hhid	Household identifier.
pid	Person identifier.
age	Age of the individual.
sex	Gender of the individual.
race	Race of the individual.
education	Education level.
employment_status	Employment status.
hours_worked	Hours worked per week.
income	Income level.
marital_status	Marital status.

COLUMN	EXPLANATION
industry	Industry of employment.
occupation	Occupation.
union	Union membership status.
health_insurance	Health insurance coverage status.
disability	Disability status.
veteran_status	Veteran status.

Census Bureau Data(Socioeconomics)

Description: National census data containing a wide range of socio-economic indicators like income, education level, and housing conditions, used for studying social inequality.

COLUMN	EXPLANATION
age	Age of the individual.
sex	Gender of the individual.
race	Race of the individual.
education	Highest level of education achieved.
income	Income level.
employment_status	Employment status.
housing	Housing conditions.
marital_status	Marital status.
household_size	Number of people in the household.
geographic_location	Geographic location of the household.

Community Dataset(Socioeconomics)

Description: The community dataset contains various socio-economic, demographic, and law enforcement attributes for different communities. Each column represents a specific attribute, and each row represents a different community. Below are brief explanations of some columns:

ATTRIBUTE	DESCRIPTION
population	Total population
householdsize	Average household size

ATTRIBUTE	DESCRIPTION
racepctblack, racePctWhite, racePctAsian, racePctHisp	Proportion of Black, White, Asian, and Hispanic populations
agePct12t21, agePct12t29, agePct16t24, agePct65up	Proportion of population in specific age groups (12-21, 12-29, 16-24, 65 and over)
numbUrban, pctUrban	Number and percentage of urban population
medIncome, medFamInc, perCapInc	Median income, median family income, and per capita income
PctPopUnderPov	Percentage of population under the poverty line
PctLess9thGrade, PctNotHSGrad, PctBSorMore	Education levels (less than 9th grade, not high school graduate, bachelor's degree or more)
PctUnemployed, PctEmploy	Unemployment rate and employment rate
PctEmplManu, PctEmplProfServ	Employment in manufacturing and professional services
MalePctDivorce, MalePctNevMarr, FemalePctDiv, TotalPctDiv	Male divorce rate, male never married rate, female divorce rate, and total divorce rate
PersPerFam	Persons per family
PctFam2Par, PctKids2Par, PctYoungKids2Par, PctTeen2Par	Percentage of two-parent families, children in two-parent families, young children in two-parent families, and teenagers in two-parent families
PctWorkMomYoungKids, PctWorkMom	Percentage of working mothers with young children and total working mothers
NumIlleg, PctIlleg	Number and percentage of illegitimate children
NumImmig, PctImmigRecent, PctImmigRec5, PctImmigRec8, PctImmigRec10	Immigration statistics (number of immigrants, recent immigrants, immigrants in the last 5, 8, and 10 years)
PctSpeakEnglOnly, PctNotSpeakEnglWell	Percentage of population that speaks only English and those who do not speak English well
PctLargHouseFam, PctLargHouseOccup	Percentage of large families and large households

ATTRIBUTE	DESCRIPTION
PersPerOccupHous, PersPerOwnOccHous, PersPerRentOccHous	Persons per occupied house, per owned house, and per rented house
PctPersOwnOccup	Percentage of owner-occupied housing
PctPersDenseHous	Percentage of densely housed population
PctHousLess3BR	Percentage of houses with less than 3 bedrooms
MedNumBR	Median number of bedrooms
HousVacant, PctHousOccup, PctHousOwnOcc, PctVacantBoarded, PctVacMore6Mos	Housing statistics (vacant houses, occupied houses, owner-occupied houses, boarded-up vacant houses, houses vacant for more than 6 months)
MedYrHousBuilt	Median year houses were built
PctHousNoPhone, PctWOFullPlumb	Percentage of houses without a phone and without full plumbing
OwnOccLowQuart, OwnOccMedVal, OwnOccHiQuart	Owner-occupied housing values (low quartile, median, high quartile)
RentLowQ, RentMedian, RentHighQ, MedRent	Rent values (low quartile, median, high quartile)
MedRentPctHousInc, MedOwnCostPctInc, MedOwnCostPctIncNoMtg	Median rent as a percentage of household income, median owner costs as a percentage of income (with and without mortgage)
NumInShelters, NumStreet	Number of people in shelters and on the street
PctForeignBorn, PctBornSameState, PctSameHouse85, PctSameCity85, PctSameState85	Immigration statistics (foreign-born percentage, born in the same state, living in the same house, city, and state since 1985)
LemasSwornFT, LemasSwFTPerPop, LemasSwFTFieldOps, LemasSwFTFieldPerPop, LemasTotalReq, LemasTotReqPerPop, PolicReqPerOffic, PolicPerPop	Law enforcement statistics (full-time sworn officers, full-time sworn officers per capita, field operations officers, field operations officers per capita, total requests, total requests per capita, requests per officer, officers per capita)
RacialMatchCommPol	Racial match between community and police
PctPolicWhite, PctPolicBlack, PctPolicHisp, PctPolicAsian, PctPolicMinor	Percentage of White, Black, Hispanic, Asian, and minority police officers

ATTRIBUTE	DESCRIPTION
OfficAssgnDrugUnits, NumKindsDrugsSeiz, PolicAveOTWorked	Drug enforcement statistics (officers assigned to drug units, types of drugs seized, average overtime worked by police)
LandArea, PopDens, PctUsePubTrans	Geographic and transportation statistics (land area, population density, percentage using public transportation)
PolicCars, PolicOperBudg, LemasPctPolicOnPatr, LemasGangUnitDeploy, LemasPctOfficDrugUn, PolicBudgPerPop	Police resources and budget statistics (number of police cars, operational budget, percentage of police on patrol, gang unit deployment, percentage of officers in drug units, police budget per capita)
ViolentCrimesPerPop	Violent crimes per capita

European Social Survey (ESS)(Social Science)

Description: Biennial cross-national survey measuring attitudes, beliefs, and behavior patterns of diverse populations in Europe, including health and education variables.

COLUMN	EXPLANATION
country	Country of the respondent.
age	Age of the respondent.
gender	Gender of the respondent.
education	Education level of the respondent.
employment_status	Employment status of the respondent.
income	Income level of the respondent.
health_status	Self-reported health status.
political_orientation	Political orientation of the respondent.
social_trust	Level of social trust.
life_satisfaction	Self-reported life satisfaction.

Understanding America Study (UAS)(Social Science)

Description: Internet panel survey of households across the U.S., collecting data on a wide range of topics including health, economics, and education, with rich demographic information.

COLUMN	EXPLANATION
pid	Person identifier.
hid	Household identifier.
wave	Wave of the survey.
age	Age of the respondent.
gender	Gender of the respondent.
education	Education level of the respondent.
employment_status	Employment status of the respondent.
income	Income level of the respondent.
health_status	Self-reported health status.
marital_status	Marital status of the respondent.
children	Number of children in the household.
housing	Housing conditions.
life_satisfaction	Self-reported life satisfaction.

Reddit Comments Corpus(Social Science)

Description: A dataset primarily used for natural language processing research, but also for analyzing gender and racial biases in online communities.

COLUMN	EXPLANATION
comment_id	Unique identifier for the comment.
user_id	Unique identifier for the user.
subreddit	Subreddit where the comment was posted.
comment_text	Text of the comment.
timestamp	Time when the comment was posted.
upvotes	Number of upvotes the comment received.
downvotes	Number of downvotes the comment received.
parent_id	Identifier for the parent comment or post.
gender	Inferred gender of the user (if available).
race	Inferred race of the user (if available).

Twitter Data(Social Science)

Description: Social media data from Twitter, used for studying public opinion and attitude differences towards different groups.

COLUMN	EXPLANATION
tweet_id	Unique identifier for the tweet.
user_id	Unique identifier for the user.
tweet_text	Text of the tweet.
timestamp	Time when the tweet was posted.
retweets	Number of retweets the tweet received.
likes	Number of likes the tweet received.
replies	Number of replies to the tweet.
hashtags	Hashtags used in the tweet.
mentions	Users mentioned in the tweet.
location	Location of the user (if available).
gender	Inferred gender of the user (if available).
race	Inferred race of the user (if available).

Job Advertisements(Social Science)

Description: A dataset of job advertisements, used for studying gender language bias in recruitment ads.

COLUMN	EXPLANATION
job_id	Unique identifier for the job advertisement.
company_id	Unique identifier for the company.
job_title	Title of the job.
job_description	Description of the job.
requirements	Requirements for the job.
location	Location of the job.
posting_date	Date when the job was posted.
gendered_language	Presence of gendered language in the job description.
industry	Industry of the job.
salary	Salary range for the job (if available).

Diversity in News Dataset(Social Science)

Description: Contains news articles and author information used for studying fairness in news reporting.

COLUMN	EXPLANATION
article_id	Unique identifier for the article.
author_id	Unique identifier for the author.
publication	Name of the publication.
title	Title of the article.
content	Full text of the article.
publication_date	Date when the article was published.
author_gender	Gender of the author.
author_race	Race of the author.
topic	Main topic of the article.
sentiment	Sentiment score of the article.

Diversity in Movies Dataset(Social Science)

Description: Contains information about movie characters and actors used for studying fairness in the film industry.

COLUMN	EXPLANATION
movie_id	Unique identifier for the movie.
title	Title of the movie.
release_year	Year the movie was released.
genre	Genre of the movie.
character_id	Unique identifier for the character.
character_name	Name of the character.
actor_id	Unique identifier for the actor.
actor_name	Name of the actor.
actor_gender	Gender of the actor.
actor_race	Race of the actor.
screen_time	Screen time of the character.

Swiss Household Panel (SHP)(Social Science)

Description: Longitudinal survey following households in Switzerland, collecting data on household composition, health, employment, income, and education.

COLUMN	EXPLANATION
pid	Person identifier.
hid	Household identifier.
wave	Wave of the survey.
age	Age of the respondent.
gender	Gender of the respondent.
education	Education level of the respondent.
employment_status	Employment status of the respondent.
income	Income level of the respondent.
health_status	Self-reported health status.
marital_status	Marital status of the respondent.
children	Number of children in the household.
housing	Housing conditions.
life_satisfaction	Self-reported life satisfaction.

Reddit and Twitter Graph Datasets(Social Science)

Description: Novel graph datasets containing 1.2 million and 400,000 edges associated with 9,000 and 47,000 nodes, respectively, used for studying fairness in graph anomaly detection.

COLUMN	EXPLANATION
node_id	Unique identifier for the node.
node_type	Type of the node (e.g., user, post, comment).
edge_id	Unique identifier for the edge.
source_node	Source node of the edge.
target_node	Target node of the edge.
edge_type	Type of the edge (e.g., follows, replies, retweets).
timestamp	Time when the edge was created.
node_attributes	Attributes of the node (e.g., gender, race, activity level).

COLUMN	EXPLANATION
edge_attributes	Attributes of the edge (e.g., sentiment, interaction type).

COMPAS Dataset(Social Science)

Description: A dataset recording information about inmates in Florida, USA, including race and gender, used for predicting recidivism and testing algorithmic bias.

COLUMN	EXPLANATION
id	Unique identifier for the inmate.
age	Age of the inmate.
sex	Gender of the inmate.
race	Race of the inmate.
priors_count	Number of prior offenses.
juv_fel_count	Number of juvenile felony offenses.
juv_misd_count	Number of juvenile misdemeanor offenses.
juv_other_count	Number of other juvenile offenses.
charge_degree	Degree of the current charge.
charge_desc	Description of the current charge.
decile_score	COMPAS decile score.
score_text	COMPAS risk category (Low, Medium, High).
two_year_recid	Whether the inmate recidivated within two years (1=yes, 0=no).

Bank Marketing Dataset(Finance)

Description: Contains data from a Portuguese bank's marketing campaigns, used for studying fairness in loan approval processes.

COLUMN	EXPLANATION
age	Age of the client.
job	Job title of the client.
marital	Marital status of the client.
education	Education level of the client.
default	Whether the client has credit in default.

COLUMN	EXPLANATION
balance	Account balance of the client.
housing	Whether the client has a housing loan.
loan	Whether the client has a personal loan.
contact	Contact communication type.
day	Last contact day of the month.
month	Last contact month of the year.
duration	Last contact duration, in seconds.
campaign	Number of contacts performed during this campaign.
pdays	Number of days since the client was last contacted from a previous campaign.
previous	Number of contacts performed before this campaign.
poutcome	Outcome of the previous marketing campaign.
y	Whether the client subscribed to a term deposit.

German Credit Data(Finance)

Description: Contains credit evaluation information of German bank customers, used for studying fairness in credit decision-making.

COLUMN	EXPLANATION
age	Age of the customer.
sex	Gender of the customer.
job	Job category of the customer.
housing	Housing status (own, rent, free).
saving_accounts	Savings account status.
checking_account	Checking account status.
credit_amount	Amount of credit.
duration	Duration of the credit in months.
purpose	Purpose of the credit (e.g., car, furniture, etc.).
risk	Credit risk (good or bad).

Loan Default Data(Finance)

Description: Loan default data provided by financial institutions, used for analyzing fairness in loan approval processes.

COLUMN	EXPLANATION
loan_id	Unique identifier for the loan.
customer_id	Unique identifier for the customer.
loan_amount	Amount of the loan.
loan_term	Term of the loan in months.
interest_rate	Interest rate of the loan.
installment	Monthly installment amount.
grade	Loan grade.
sub_grade	Loan sub-grade.
employment_length	Length of employment in years.
home_ownership	Home ownership status.
annual_income	Annual income of the customer.
verification_status	Verification status of the income.
loan_status	Status of the loan (e.g., fully paid, charged off, etc.).

Housing Prices Data(Finance)

Description: A dataset of real estate prices, used for studying racial segregation in the housing market.

COLUMN	EXPLANATION
id	Unique identifier for the property.
date	Date of the sale.
price	Sale price of the property.
bedrooms	Number of bedrooms.
bathrooms	Number of bathrooms.
sqft_living	Square footage of the living space.
sqft_lot	Square footage of the lot.
floors	Number of floors.
waterfront	Whether the property is on the waterfront.

COLUMN	EXPLANATION
view	Quality of the view.
condition	Condition of the property.
grade	Construction grade of the property.
sqft_above	Square footage of the house above ground.
sqft_basement	Square footage of the basement.
yr_built	Year the house was built.
yr_renovated	Year the house was renovated.
zipcode	ZIP code of the property.
lat	Latitude of the property.
long	Longitude of the property.

Lending Club Loan Data(Finance)

Description: Contains loan data from Lending Club used for studying fairness in loan approval.

COLUMN	EXPLANATION
loan_amnt	Loan amount.
term	Term of the loan.
int_rate	Interest rate of the loan.
installment	Monthly installment amount.
grade	Loan grade.
sub_grade	Loan sub-grade.
emp_length	Length of employment in years.
home_ownership	Home ownership status.
annual_inc	Annual income of the borrower.
verification_status	Verification status of the income.
loan_status	Status of the loan.
purpose	Purpose of the loan.
title	Title of the loan.
zip_code	ZIP code of the borrower.
addr_state	State of the borrower.

COLUMN	EXPLANATION
dti	Debt-to-income ratio.
delinq_2yrs	Number of delinquencies in the past 2 years.
earliest_cr_line	Date of the earliest credit line.
fico_range_low	Lower bound of the FICO score range.
fico_range_high	Upper bound of the FICO score range.
inq_last_6mths	Number of inquiries in the last 6 months.
mths_since_last_delinq	Months since the last delinquency.
open_acc	Number of open credit lines.
pub_rec	Number of derogatory public records.
revol_bal	Revolving balance.
revol_util	Revolving line utilization rate.
total_acc	Total number of credit lines.
initial_list_status	Initial listing status of the loan.
application_type	Type of application (individual or joint).
annual_inc_joint	Annual income of the joint application.
dti_joint	Debt-to-income ratio of the joint application.
verification_status_joint	Verification status of the joint application.
acc_now_delinq	Number of accounts currently delinquent.
tot_coll_amt	Total collection amounts ever owed.
tot_cur_bal	Total current balance of all accounts.
open_acc_6m	Number of open accounts in the last 6 months.
open_il_6m	Number of installment accounts opened in the last 6 months.
open_il_12m	Number of installment accounts opened in the last 12 months.
open_il_24m	Number of installment accounts opened in the last 24 months.
mths_since_rcnt_il	Months since the most recent installment account opened.
total_bal_il	Total balance on all installment accounts.
il_util	Ratio of installment balance to installment credit limit.
open_rv_12m	Number of revolving accounts opened in the last 12 months.
open_rv_24m	Number of revolving accounts opened in the last 24 months.
max_bal_bc	Maximum balance on a bankcard.
all_util	Balance to credit limit on all accounts.

COLUMN	EXPLANATION
total_rev_hi_lim	Total revolving high credit/credit limit.
inq_fi	Number of personal finance inquiries.
total_cu_tl	Number of credit union trades.
inq_last_12m	Number of credit inquiries in the last 12 months.

Credit Card Default Dataset(Finance)

Description: Contains credit card user credit records used for predicting credit card default.

COLUMN	EXPLANATION
id	Unique identifier for the customer.
limit_bal	Amount of given credit (NT dollar).
sex	Gender of the customer.
education	Education level of the customer.
marriage	Marital status of the customer.
age	Age of the customer.
pay_0	Repayment status in September.
pay_2	Repayment status in August.
pay_3	Repayment status in July.
pay_4	Repayment status in June.
pay_5	Repayment status in May.
pay_6	Repayment status in April.
bill_amt1	Amount of bill statement in September.
bill_amt2	Amount of bill statement in August.
bill_amt3	Amount of bill statement in July.
bill_amt4	Amount of bill statement in June.
bill_amt5	Amount of bill statement in May.
bill_amt6	Amount of bill statement in April.
pay_amt1	Amount of previous payment in September.
pay_amt2	Amount of previous payment in August.
pay_amt3	Amount of previous payment in July.

COLUMN	EXPLANATION
pay_amt4	Amount of previous payment in June.
pay_amt5	Amount of previous payment in May.
pay_amt6	Amount of previous payment in April.
default_payment_next_month	Default payment (1=yes, 0=no).

Medical Expenditure Panel Survey (MEPS)(Health)

Description: Annual survey of U.S. households and individuals on medical expenditures, covering health status, medical services usage, insurance coverage, and socioeconomic factors.

COLUMN	EXPLANATION
person_id	Unique identifier for the person.
household_id	Unique identifier for the household.
age	Age of the individual.
sex	Gender of the individual.
race	Race of the individual.
education	Education level of the individual.
income	Income level of the household.
insurance_status	Health insurance coverage status.
health_status	Self-reported health status.
medical_expenditures	Total medical expenditures.
hospital_visits	Number of hospital visits.
doctor_visits	Number of doctor visits.
prescription_drugs	Number of prescription drugs.
dental_visits	Number of dental visits.
mental_health_visits	Number of mental health visits.

National Health and Nutrition Examination Survey (NHANES) (Health)

Description: Ongoing survey assessing the health and nutritional status of adults and children in the U.S., including demographic, dietary, and health-related questions.

COLUMN	EXPLANATION
seqn	Respondent sequence number.
age	Age of the respondent.
sex	Gender of the respondent.
race	Race of the respondent.
education	Education level of the respondent.
income	Income level of the household.
bmi	Body mass index.
blood_pressure	Blood pressure measurements.
cholesterol	Cholesterol levels.
glucose	Blood glucose levels.
dietary_intake	Dietary intake information.
physical_activity	Physical activity levels.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
health_conditions	Self-reported health conditions.

Medical Information Mart for Intensive Care (MIMIC-IV)(Health)

Description: Large, de-identified dataset of ICU patients' health data, including demographics, vital signs, and clinical measurements. Requires application for access.

COLUMN	EXPLANATION
subject_id	Unique identifier for the patient.
hadm_id	Unique identifier for the hospital admission.
icustay_id	Unique identifier for the ICU stay.
age	Age of the patient.
sex	Gender of the patient.
ethnicity	Ethnicity of the patient.

COLUMN	EXPLANATION
admission_type	Type of admission (e.g., emergency, elective).
admission_location	Location from which the patient was admitted.
discharge_location	Location to which the patient was discharged.
insurance	Insurance type.
language	Language spoken by the patient.
marital_status	Marital status of the patient.
diagnosis	Primary diagnosis.
apache_ii	APACHE II score.
sofa	SOFA score.
gcs	Glasgow Coma Scale score.
heart_rate	Heart rate measurements.
blood_pressure	Blood pressure measurements.
respiratory_rate	Respiratory rate measurements.
temperature	Body temperature measurements.
oxygen_saturation	Oxygen saturation levels.
ventilation_status	Ventilation status.
length_of_stay	Length of ICU stay.

UK Biobank(Health)

Description: Biomedical database with detailed genetic, lifestyle, and health records from around 500,000 UK participants, aimed at improving the prevention, diagnosis, and treatment of diseases.

COLUMN	EXPLANATION
eid	Unique identifier for the participant.
age	Age of the participant.
sex	Gender of the participant.
ethnicity	Ethnicity of the participant.
education	Education level of the participant.
income	Income level of the participant.
smoking_status	Smoking status.
alcohol_use	Alcohol use.

COLUMN	EXPLANATION
physical_activity	Physical activity levels.
dietary_intake	Dietary intake information.
medical_history	Medical history.
medications	Medications taken by the participant.
genetic_data	Genetic data.
blood_pressure	Blood pressure measurements.
cholesterol	Cholesterol levels.
glucose	Blood glucose levels.
bmi	Body mass index.
mental_health	Mental health status.

Framingham Heart Study(Health)

Description: Long-term cardiovascular cohort study beginning in 1948, includes detailed health and demographic data to identify factors contributing to heart disease.

COLUMN	EXPLANATION
id	Unique identifier for the participant.
cohort	Cohort of the study (e.g., original, offspring).
age	Age of the participant.
sex	Gender of the participant.
education	Education level of the participant.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
physical_activity	Physical activity levels.
dietary_intake	Dietary intake information.
medical_history	Medical history.
medications	Medications taken by the participant.
blood_pressure	Blood pressure measurements.
cholesterol	Cholesterol levels.
glucose	Blood glucose levels.
bmi	Body mass index.

COLUMN	EXPLANATION
heart_disease	Presence of heart disease.

Health and Retirement Study (HRS)(Health)

Description: Longitudinal panel study surveying Americans over 50, covering health conditions, insurance, finances, family, and employment.

COLUMN	EXPLANATION
hhid	Household identifier.
pn	Person number within the household.
age	Age of the respondent.
sex	Gender of the respondent.
race	Race of the respondent.
education	Education level of the respondent.
income	Income level of the household.
employment_status	Employment status.
marital_status	Marital status.
health_status	Self-reported health status.
insurance_status	Health insurance coverage status.
retirement_status	Retirement status.
wealth	Total wealth of the household.
housing	Housing situation.
children	Number of children.
satisfaction	Life satisfaction score.

Behavioral Risk Factor Surveillance System (BRFSS)(Health)

Description: World's largest telephone survey system tracking health conditions and risk behaviors in the U.S., includes demographic information.

COLUMN	EXPLANATION
state	State of residence.
year	Year of the survey.

COLUMN	EXPLANATION
age	Age of the respondent.
sex	Gender of the respondent.
race	Race of the respondent.
education	Education level of the respondent.
income	Income level of the household.
health_status	Self-reported health status.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
physical_activity	Physical activity levels.
bmi	Body mass index.
blood_pressure	Blood pressure measurements.
cholesterol	Cholesterol levels.
diabetes	Presence of diabetes.
healthcare_access	Access to healthcare services.

All of Us Research Program(Health)

Description: NIH program aiming to collect health data from over one million U.S. participants to accelerate research and improve health, emphasizing diversity and inclusion.

COLUMN	EXPLANATION
participant_id	Unique identifier for the participant.
age	Age of the participant.
sex	Gender of the participant.
race	Race of the participant.
ethnicity	Ethnicity of the participant.
education	Education level of the participant.
income	Income level of the participant.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
physical_activity	Physical activity levels.
dietary_intake	Dietary intake information.

COLUMN	EXPLANATION
medical_history	Medical history.
medications	Medications taken by the participant.
genetic_data	Genetic data.
blood_pressure	Blood pressure measurements.
cholesterol	Cholesterol levels.
glucose	Blood glucose levels.
bmi	Body mass index.
mental_health	Mental health status.

Demographic and Health Surveys (DHS)(Health)

Description: Collects and disseminates accurate, nationally representative data on health and population in developing countries, including fertility, mortality, and nutritional status.

COLUMN	EXPLANATION
country	Country of the survey.
year	Year of the survey.
cluster	Cluster number.
household	Household number.
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
education	Education level of the respondent.
marital_status	Marital status of the respondent.
children	Number of children.
fertility	Fertility status.
mortality	Mortality status.
nutrition	Nutritional status.
healthcare_access	Access to healthcare services.
water_source	Source of drinking water.
sanitation	Sanitation facilities.
wealth_index	Wealth index of the household.

Canadian Community Health Survey (CCHS)(Health)

Description: Cross-sectional survey providing information on health status, healthcare utilization, and health determinants of the Canadian population, including demographic data.

COLUMN	EXPLANATION
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
education	Education level of the respondent.
income	Income level of the household.
health_status	Self-reported health status.
chronic_conditions	Presence of chronic conditions.
mental_health	Mental health status.
physical_activity	Physical activity levels.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
dietary_intake	Dietary intake information.
healthcare_utilization	Use of healthcare services.

World Health Survey (WHS)(Health)

Description: Conducted by WHO, provides valid, reliable, and comparable information on health and health systems across multiple countries.

COLUMN	EXPLANATION
country	Country of the survey.
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
education	Education level of the respondent.
income	Income level of the household.
health_status	Self-reported health status.
chronic_conditions	Presence of chronic conditions.

COLUMN	EXPLANATION
mental_health	Mental health status.
physical_activity	Physical activity levels.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
dietary_intake	Dietary intake information.
healthcare_utilization	Use of healthcare services.

Survey of Health Ageing and Retirement in Europe (SHARE)(Health)

Description: Multidisciplinary, cross-national panel data on health, socio-economic status, and social and family networks of individuals aged 50 or over.

COLUMN	EXPLANATION
country	Country of the survey.
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
education	Education level of the respondent.
income	Income level of the household.
health_status	Self-reported health status.
chronic_conditions	Presence of chronic conditions.
mental_health	Mental health status.
physical_activity	Physical activity levels.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
dietary_intake	Dietary intake information.
healthcare_utilization	Use of healthcare services.
family_networks	Information on social and family networks.

National Survey on Drug Use and Health (NSDUH)(Health)

Description: Provides data on tobacco, alcohol, illicit drug use, and mental health in the U.S., including demographic and socioeconomic variables.

COLUMN	EXPLANATION
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
education	Education level of the respondent.
income	Income level of the household.
health_status	Self-reported health status.
mental_health	Mental health status.
tobacco_use	Tobacco use status.
alcohol_use	Alcohol use status.
drug_use	Illicit drug use status.
physical_activity	Physical activity levels.
healthcare_utilization	Use of healthcare services.

Open Payments Dataset(Health)

Description: Contains financial interactions between medical manufacturers and healthcare providers, including provider specialties and demographic information.

COLUMN	EXPLANATION
transaction_id	Unique identifier for the transaction.
provider_id	Unique identifier for the healthcare provider.
provider_name	Name of the healthcare provider.
provider_specialty	Specialty of the healthcare provider.
transaction_date	Date of the transaction.
transaction_amount	Amount of the transaction.
transaction_type	Type of transaction (e.g., consulting fee, travel reimbursement).
manufacturer_id	Unique identifier for the medical manufacturer.
manufacturer_name	Name of the medical manufacturer.

Health Facts Database(Health)

Description: Contains de-identified electronic health records from hospitals across the U.S., including patient demographics, diagnoses, treatments, and medications. Access may be restricted.

COLUMN	EXPLANATION
patient_id	Unique identifier for the patient.
age	Age of the patient.
sex	Gender of the patient.
race	Race of the patient.
diagnosis	Primary diagnosis.
treatment	Treatment provided.
medications	Medications prescribed.
hospital_id	Unique identifier for the hospital.
admission_date	Date of hospital admission.
discharge_date	Date of hospital discharge.

Child Health and Development Studies (CHDS)(Health)

Description: Longitudinal study of children born in the Oakland, California area between 1959 and 1967, focusing on prenatal exposures and child development outcomes.

COLUMN	EXPLANATION
child_id	Unique identifier for the child.
mother_id	Unique identifier for the mother.
birth_date	Date of birth of the child.
sex	Gender of the child.
birth_weight	Birth weight of the child.
gestational_age	Gestational age at birth.
prenatal_exposures	Prenatal exposures (e.g., smoking, alcohol).
developmental_outcomes	Developmental outcomes (e.g., cognitive, motor skills).
health_status	Health status of the child.

California Health Interview Survey (CHIS)(Health)

Description: Largest state health survey in the U.S., provides data on health status, health behaviors, and access to healthcare services for California residents, with detailed demographics.

COLUMN	EXPLANATION
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
race	Race of the respondent.
education	Education level of the respondent.
income	Income level of the household.
health_status	Self-reported health status.
chronic_conditions	Presence of chronic conditions.
mental_health	Mental health status.
physical_activity	Physical activity levels.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
dietary_intake	Dietary intake information.
healthcare_access	Access to healthcare services.

German Health Interview and Examination Survey for Adults (DEGS) (Health)

Description: Provides comprehensive data on the health status of adults in Germany, including physical examinations, interviews, and laboratory tests.

COLUMN	EXPLANATION
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
education	Education level of the respondent.
income	Income level of the household.
health_status	Self-reported health status.

COLUMN	EXPLANATION
chronic_conditions	Presence of chronic conditions.
mental_health	Mental health status.
physical_activity	Physical activity levels.
smoking_status	Smoking status.
alcohol_use	Alcohol use.
dietary_intake	Dietary intake information.
blood_pressure	Blood pressure measurements.
cholesterol	Cholesterol levels.
glucose	Blood glucose levels.
bmi	Body mass index.

FairFace(Health)

Description: An open-source dataset for facial recognition bias detection, containing facial images labeled by age, gender, and race.

COLUMN	EXPLANATION
image_id	Unique identifier for the image.
age	Age of the person in the image.
gender	Gender of the person in the image.
race	Race of the person in the image.
image_path	Path to the image file.

CelebA(Health)

Description: A dataset containing celebrity facial images with multiple attribute annotations, including gender and age, used for studying algorithmic fairness.

COLUMN	EXPLANATION
image_id	Unique identifier for the image.
age	Age of the celebrity in the image.
gender	Gender of the celebrity in the image.
attributes	List of attributes (e.g., smiling, wearing glasses).

COLUMN	EXPLANATION
image_path	Path to the image file.

Harvard FairSeg(Health)

Description: A medical image dataset designed for studying fairness in segmentation algorithms, containing retinal imaging data with sensitive attributes like age, gender, and race.

COLUMN	EXPLANATION
image_id	Unique identifier for the image.
age	Age of the patient.
gender	Gender of the patient.
race	Race of the patient.
diagnosis	Diagnosis based on the image.
image_path	Path to the image file.

Healthcare Cost Utilization Project (HCUP)(Health)

Description: A large medical database containing information on hospital inpatient, emergency, and outpatient services, used for studying fairness in healthcare distribution.

COLUMN	EXPLANATION
patient_id	Unique identifier for the patient.
age	Age of the patient.
sex	Gender of the patient.
race	Race of the patient.
diagnosis	Primary diagnosis.
treatment	Treatment provided.
medications	Medications prescribed.
hospital_id	Unique identifier for the hospital.
admission_date	Date of hospital admission.
discharge_date	Date of hospital discharge.
insurance	Type of insurance coverage.
length_of_stay	Length of hospital stay.

WHO Health Inequality Database(Health)

Description: Contains nearly 11 million data points from 59 datasets across 22 inequality-related aspects, such as demographic, socio-economic, and geographic factors.

COLUMN	EXPLANATION
country	Country of the survey.
year	Year of the survey.
indicator	Health indicator being measured.
age	Age group.
sex	Gender.
education	Education level.
income	Income level.
urban_rural	Urban or rural residence.
health_status	Health status.
healthcare_access	Access to healthcare services.

Harvard-FairSeg Dataset(Health)

Description: The first fairness dataset for medical segmentation, containing 10,000 patient samples.

COLUMN	EXPLANATION
image_id	Unique identifier for the image.
age	Age of the patient.
gender	Gender of the patient.
race	Race of the patient.
diagnosis	Diagnosis based on the image.
image_path	Path to the image file.

AI Fairness 360 (AIF360)(Health)

Description: An open-source Python library providing comprehensive solutions for detecting and mitigating bias in machine learning models, offering various bias mitigation algorithms and fairness metrics.

COLUMN	EXPLANATION
dataset_name	Name of the dataset.
algorithm	Bias mitigation algorithm used.
metric	Fairness metric used.
preprocessing	Preprocessing steps applied.
postprocessing	Postprocessing steps applied.
results	Results of the bias mitigation.

Harvard-Ophthalmology-AI-Lab Dataset(Health)

Description: High-quality medical fairness datasets provided by the Harvard Ophthalmology AI Lab, including fairness classification tasks for three ophthalmic diseases.

COLUMN	EXPLANATION
image_id	Unique identifier for the image.
age	Age of the patient.
gender	Gender of the patient.
race	Race of the patient.
diagnosis	Diagnosis based on the image.
image_path	Path to the image file.

Diversity in Faces Dataset(Health)

Description: Contains a large number of facial images used for studying fairness in computer vision algorithms regarding race and gender.

COLUMN	EXPLANATION
image_id	Unique identifier for the image.
age	Age of the person in the image.
gender	Gender of the person in the image.
race	Race of the person in the image.
image_path	Path to the image file.

Health Insurance Dataset(Health)

Description: Contains health insurance application data used for studying fairness in health insurance.

COLUMN	EXPLANATION
application_id	Unique identifier for the insurance application.
age	Age of the applicant.
sex	Gender of the applicant.
income	Income level of the applicant.
employment_status	Employment status of the applicant.
health_status	Self-reported health status.
insurance_type	Type of insurance applied for.
approval_status	Approval status of the application (approved or denied).

Drug Consumption Dataset(Health)

Description: Contains data on individual drug consumption used for studying patterns and fairness in drug consumption.

COLUMN	EXPLANATION
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
education	Education level of the respondent.
income	Income level of the respondent.
drug_use	Type of drug used (e.g., cannabis, cocaine).
frequency	Frequency of drug use (e.g., daily, weekly, monthly).
health_status	Self-reported health status.

Add Health (National Longitudinal Study of Adolescent to Adult Health)(Health; Education)

Description: Longitudinal study of a nationally representative sample of U.S. adolescents followed into adulthood, covering health, social, economic, and educational data.

COLUMN	EXPLANATION
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
race	Race of the respondent.
education	Education level of the respondent.
income	Income level of the household.
health_status	Self-reported health status.
employment_status	Employment status.
marital_status	Marital status.
children	Number of children.
housing	Housing situation.
satisfaction	Life satisfaction score.

Fragile Families and Child Wellbeing Study (FFCWS)(Health; Education)

Description: Longitudinal study following a cohort of children born in large U.S. cities between 1998 and 2000, focusing on unmarried parents and outcomes for their children.

COLUMN	EXPLANATION
child_id	Unique identifier for the child.
mother_id	Unique identifier for the mother.
father_id	Unique identifier for the father.
birth_date	Date of birth of the child.
sex	Gender of the child.
birth_weight	Birth weight of the child.
gestational_age	Gestational age at birth.
prenatal_exposures	Prenatal exposures (e.g., smoking, alcohol).
developmental_outcomes	Developmental outcomes (e.g., cognitive, motor skills).
health_status	Health status of the child.
family_structure	Family structure (e.g., single parent, both parents).
socioeconomic_status	Socioeconomic status of the family.

National Longitudinal Survey of Youth (NLSY)(Health; Education)

Description: A long-term survey conducted by the U.S. Bureau of Labor Statistics, collecting extensive data on youth employment, used for studying fairness in employment opportunities.

COLUMN	EXPLANATION
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
race	Race of the respondent.
education	Education level of the respondent.
employment_status	Employment status.
income	Income level of the respondent.
marital_status	Marital status.
children	Number of children.
housing	Housing situation.
satisfaction	Life satisfaction score.

Global School-based Student Health Survey (GSHS) (Health;Education)

Description: WHO-sponsored survey collecting data on health behaviors and protective factors among students aged 13-17, covering multiple countries.

COLUMN	EXPLANATION
country	Country of the survey.
school_id	Unique identifier for the school.
student_id	Unique identifier for the student.
age	Age of the student.
sex	Gender of the student.
grade	Grade level of the student.
health_behaviors	Information on health behaviors (e.g., smoking, alcohol use).
protective_factors	Information on protective factors (e.g., physical activity, dietary habits).
mental_health	Mental health status.

COLUMN	EXPLANATION
physical_activity	Physical activity levels.
dietary_intake	Dietary intake information.
healthcare_access	Access to healthcare services.

Student Performance Dataset(Education)

Description: Includes math and Portuguese language grades of students from two Portuguese secondary schools, along with demographic information like gender, age, and family background.

COLUMN	EXPLANATION
student_id	Unique identifier for the student.
age	Age of the student.
sex	Gender of the student.
school	School attended by the student.
grade	Grade level of the student.
math_grade	Math grade of the student.
portuguese_grade	Portuguese language grade of the student.
family_background	Family background information (e.g., parents' education, occupation).

Programme for International Student Assessment (PISA)(Education)

Description: An international assessment by OECD evaluating 15-year-old students' reading, mathematics, and science literacy every three years, with extensive background information.

COLUMN	EXPLANATION
student_id	Unique identifier for the student.
age	Age of the student.
sex	Gender of the student.
country	Country of the student.
school	School attended by the student.
reading_score	Reading literacy score.

COLUMN	EXPLANATION
math_score	Mathematics literacy score.
science_score	Science literacy score.
family_background	Family background information (e.g., parents' education, occupation).

Early Childhood Longitudinal Study (ECLS)(Education)

Description: Studies children's development, school readiness, and early school experiences, with cohorts starting at birth and kindergarten, including demographic and educational data.

COLUMN	EXPLANATION
child_id	Unique identifier for the child.
age	Age of the child.
sex	Gender of the child.
birth_weight	Birth weight of the child.
gestational_age	Gestational age at birth.
developmental_outcomes	Developmental outcomes (e.g., cognitive, motor skills).
school_readiness	School readiness assessment.
family_background	Family background information (e.g., parents' education, occupation).

Education Longitudinal Study of 2002 (ELS:2002)(Education)

Description: Tracks a cohort of high school sophomores into higher education and the workforce, includes academic achievement and background information.

COLUMN	EXPLANATION
student_id	Unique identifier for the student.
age	Age of the student.
sex	Gender of the student.
school	School attended by the student.
grade	Grade level of the student.
academic_achievement	Academic achievement scores.

COLUMN	EXPLANATION
higher_education	Higher education enrollment status.
employment_status	Employment status.
family_background	Family background information (e.g., parents' education, occupation).

Common Core of Data (CCD)(Education)

Description: Annual database of all public elementary and secondary schools and school districts in the U.S., including student demographics and education staff data.

COLUMN	EXPLANATION
school_id	Unique identifier for the school.
district_id	Unique identifier for the school district.
school_name	Name of the school.
district_name	Name of the school district.
state	State where the school is located.
student_enrollment	Number of students enrolled.
student_demographics	Demographic information of the students (e.g., race, gender).
education_staff	Information about the education staff (e.g., number of teachers, staff demographics).

National Education Longitudinal Study of 1988 (NELS:88) (Education)

Description: Tracks a cohort of 8th-grade students through secondary and postsecondary education, collecting data on educational processes and outcomes, and background information.

COLUMN	EXPLANATION
student_id	Unique identifier for the student.
age	Age of the student.
sex	Gender of the student.
school	School attended by the student.
grade	Grade level of the student.

COLUMN	EXPLANATION
academic_achievement	Academic achievement scores.
postsecondary_education	Postsecondary education enrollment status.
employment_status	Employment status.
family_background	Family background information (e.g., parents' education, occupation).

Programme for the International Assessment of Adult Competencies (PIAAC)(Education)

Description: International assessment measuring adult skills and competencies in key information-processing areas, along with participants' background information.

COLUMN	EXPLANATION
respondent_id	Unique identifier for the respondent.
age	Age of the respondent.
sex	Gender of the respondent.
country	Country of the respondent.
education	Education level of the respondent.
employment_status	Employment status.
income	Income level of the respondent.
literacy_score	Literacy competency score.
numeracy_score	Numeracy competency score.
problem_solving_score	Problem-solving competency score.

Kaggle's Titanic Dataset(Education)

Description: Contains demographic and survival information of Titanic passengers, commonly used for teaching machine learning techniques and exploring bias in predictive models.

COLUMN	EXPLANATION
passenger_id	Unique identifier for the passenger.
survived	Survival status (0 = No, 1 = Yes).
pclass	Passenger class (1 = 1st, 2 = 2nd, 3 = 3rd).

COLUMN	EXPLANATION
name	Name of the passenger.
sex	Gender of the passenger.
age	Age of the passenger.
sibsp	Number of siblings/spouses aboard the Titanic.
parch	Number of parents/children aboard the Titanic.
ticket	Ticket number.
fare	Passenger fare.
cabin	Cabin number.
embarked	Port of embarkation (C = Cherbourg, Q = Queenstown, S = Southampton).

LawSchool Dataset(Education)

Description: Contains grades and other personal information of law school applicants, used for studying fairness in the admission process.

COLUMN	EXPLANATION
applicant_id	Unique identifier for the applicant.
age	Age of the applicant.
sex	Gender of the applicant.
race	Race of the applicant.
lsat_score	LSAT score.
gpa	Undergraduate GPA.
admission_status	Admission status (admitted or not admitted).
law_school	Law school applied to.
family_background	Family background information (e.g., parents' education, occupation).

Student Dataset(Education)

Description: The student dataset contains personal information and academic performance data for a group of students. Below are brief explanations of some columns:

ATTRIBUTE	DESCRIPTION
school	School

ATTRIBUTE	DESCRIPTION
sex	Gender
age	Age
address	Address type (urban or rural)
famsize	Family size (large or small)
Pstatus	Parents' marital status (living together or apart)
Medu	Mother's education level
Fedu	Father's education level
Mjob	Mother's job
Fjob	Father's job
reason	Reason for choosing this school
guardian	Guardian
traveltime	Travel time to school
studytime	Weekly study time
failures	Number of past class failures
schoolsup	Extra educational support from school
famsup	Extra educational support from family
paid	Attending extra paid classes
activities	Participating in extracurricular activities
nursery	Attended nursery school
higher	Wants to pursue higher education
internet	Internet access at home
romantic	In a romantic relationship
famrel	Quality of family relationships
freetime	Free time after school
goout	Going out with friends
Dalc	Workday alcohol consumption
Walc	Weekend alcohol consumption
health	Health status
absences	Number of school absences
G3	Final grade
